ÖNSÖZ

İstanbul Müzesinde bulunan Boğazköy tabletlerinden bu üçüncü metin serisi, 1944 ve 1947 senelerinde «İstanbul Arkeoloji Müzelerinde bulunan Boğazköy Tabletleri I ve II» (kısaltılmış şekli IBoT) namiyle neşredilen birinci ve ikinci seri ile aynı şekilde tertip edilmiştir.

Bu cilt, Berlin'den naşredilmeksizin gönderilen, ekserisi bayram ve sihir rituallerinden ibaret olup herhangi bir suretle alâkayı çekmiş bulunan metinlerin son kısmını ihtiva etmektedir. Bundan başka bidayette İstanbul'da bırakılmış tabletler arasında bulunan Bo. 2015 a=No. 1 bu nüshaya ilâve edilmiştir.

Kopyalar tanzim edildikten sonra, 14/VII/949 tarihinde, Lagaş tabletleri arasında F. R. Kraus tarafından L. 1443 1444, 1446, 1447 numaraları ile 4 adet Boğazköy tableti bulunmuştur. Bunlardan ikisinin Scheil'ın Chantre, Mission en Cappadoc 1893-1894, sah. 58-60 ve 61 de neşrettiği ve uzun zamandanberi bulunamıyan tabletler olduğu anlaşılmıştır. Scheil sah. 58 de ancak ikisinden bahsettiği halde, muhtasar müze envanterine göre 4 tabletin de Chantre'dan alınmış olduğu, yalnız müze envanterinde buluntu yerlerinin yanlışlıkla Kültepe olarak gösterildiği meydana çıkmıştır. Bo. 10412-10415 numaraları verilmiş olup, cildimize 141-144 numaralarla ithal edilen bu tabletlerden Bo. 10412 Scheil No. 1 (Telipinu metni), Bo. 10413 Scheil No. 2 dir.

Bo. 145-147, 1941 sensinde müzemiz tarafından satın alınan üç parçadır. Bunların, yeni kazılardan sonra müzeye girip IBoT I 7, 26 ve II 113 olarak yayınlanan 10409-10411 numaralı metinler gibi (Laroche, Revue d'Assyriologie 42, sah. 215-217 ve Otten, Bibliotheca Orientalis 6, sah. 225 ile not 3) son hafriyatlardan çıkan tabletlerle birleşmeleri imkânı mevcut olduğundan buraya alınmıştır.

En son olarak hem Prof. H. G. Güterbock, hem de Prof. A. Goetze'nin teşvikleri ile İstanbul'da mevcut neşredilmemiş büyük tabletlerin sonucusu olduğu halde sathının çok bozuk olması dolayısı ile kopya edilmemiş olan Bo. 2006=No. 148 in kopyasına teşebbüs edildi. Bu tabletin ay. ünün transkripsiyonunu, 1951 yılında Prof. A. Goetze müsteşrikler kongresine geldiği zaman lütfen yapmıştı. Bundan bir müddet sonra da Porf. H. G. Güterbock, tabletin 25 sene evvel bayan L. Ehelolf tarafından İstanbul'da çekilmiş bir fotoğrafını göndermek zahmetinde bulundu. Bu fotoğraf küçük olmasına rağmen tabletin iyi bir durumda bulunduğu zamana ait olduğundan bunun yardımı ile daha çok bozuk olan öy. ünün büyük bir kısmı okunabildi. Ve ay. de de okunamayan yerler tamamlanabildi. Bu suret'e yapılan kopyayı son olarak, 1952 yılı Temmuz ayında İstanbul'da bulunan Prof. Güterbock ile birlikte tekrar kontrol edebilmek imkânı hasıl olmuştur.

Kopyaların büyük bir kısmı 1947 yılı yaz ayları zarfında, o zaman Ankara'da bulunan Sayın Hocamız Prof. H. G. Güterbock'ın nezareti altında yapılmıştır. Memleketimizde bulundukları zamanda olduğu gibi Amerika'da da aynı yüksek alâkayı göstererek bu eseri hazırlamakta bize büyük yardımlarda bulunan sayın hocamıza candan teşekkürlerimizi borç biliriz. Ayrıca Sayın Prof. Goetze'ye de alâka ve yardımlarından dolayı teşekkürlerimizi sunarız.

VORWORT

Diese dritte Reihe von ausgewählten Boğazköy-Texten in Istanbuler Museum ist ebenso zusammengestellt wie die 1944 und 1947 veröffentlichten Hefte (abgekürzt IBoT I und II). Sie enthält den Rest der unveröffentlicht aus Berlin zürückgekommenen Texte, meist Rituale und Festbeschreibungen, sowie alle irgendwelches Interesse beanspruchen könnenden Stücke. Ausserdem wurde von den in Istanbul zürückgelassenen Tafeln die Tafel Bo. 2015 a=Nr. 1 hinzugefügt.

Nach Fertigstellung aller Kopien wurden am 14. VII. 1949 von F. R. Kraus unter den Lagaş-Tafeln vier Stücke von Boğazköy-Tafeln (Nummern L. 1443, 1444, 1446 und 1447) bemerkt, deren zwei sich bei näherem Zusehen als die lange vermissten Texte Nr 1 und 2 erwiesen, welche Scheil bei Chantre, Mission en Cappadoce 1893 1894, S. 58 60 und 61, veröffentlicht hat. Trotz Scheils Bemerkung, S. 58, werden wohl nicht nur diese beiden, sondern alle vier Fragmente von der Chantreschen Mission stammen, wie auch das kurze Museumsinventar angibt, welches allerdings als Herkunftsort fälschlich den Kültepe bezeichnet. Die Fragmente erhielten die Nummern Bo. 10412 Scheil Nr. 1, Telipinu-Fragment), Bo. 10413 (Scheil Nr. 2); Bo. 10414 und 10415 wurden als Nr. 143, 144 in die Edition aufgenommen.

Nr. 145-147: drei 1941 vom Museum angekaufte Fragmente. Sie wurden hier aufgenommen, weil die Möglichkeit besteht, dass sie wie die ebenfalls nach den neuen Grabungen ins Museum gelangten, als IBoT I 1, 26 und II 113 veröffentlichten Stücke Bo. 10409 10411 (vgl. Laroche, Revue d'Assyriologie 42, S. 215-217) und Otten, Bibliotheca Orientalis 9, S. 225 Not. 3), zu Tafeln aus den neuen Grabungen gehören.

Nr. 148=Bo. 9006 ist die letzte grosse unpublizierte Bogazköy-Tafel der Istanbuler Sammlung. Sie ist in sehr schlechtem Zustand erhalten. Trotzdem haben wir es gewagt, in Anregung von Prof. H. G. Güterbock und Prof. A. Goetze, sie zu kopieren und den Fachgenossen zur Verfügung zu stellen. Die Rs. dieser Tafel ist von Prof. A. Goetze während der Orientalitentagungen in Istanbul im Jahre 1951 transkribiert und uns zur Verfügung gestellt worden. Kurz nachher hatte Prof. Güterbock die Güte uns Aufnahmen derselben Tafel zu schicken, die vor 25 Jahren in Istanbul von Frau L. Ehelolf gemacht wurden. Diese Aufnahmen sind uns von grossem Nutzen gewesen, da die Tafel damals, als die Photographien hergestellt wurden, sich in viel besserem Zustand befand als heute. Mit Hilfe dieser Photographien haben wir sonst sehr schwer Lesbares sowohl auf der stark beschädigten Vs. wie auf der besser erhaltenen Rs. verstehen können Schliesslich konnten wir die so hergestellte Kopie mit Prof. Güterbock bei seinem Besuch im Juli 1952 durchsehen.

Die meisten Kopien wurden im Sommer 1947 unter der Aufsicht von Herrn Professor H. G. Güterbock, damals noch in Ankara, hergestellt wir danken unserem verehrten Lehrer herzlichst für das uns stets entgegengebrachte Interesse, das er uns während seines Aufenthaltes in unserem Lande bezeugt hat. Wir sind ihm auch ferner für die Bestrebungen die er in Amerika fortzusetzen die Güte hat, innerlichst dankbar. Wir danken auch Herrn Professor Goetze für seine Anteilnahme an unsere Arbeit.

Von M. Çığ stammen die Kopie der Nummern 1,4-5, 9-10, 12-15, 17-19, 31-22, 24-27, 29 30, 40, 42-43, 45, 47-49, 52, 55-60, 62, 64 65, 67, 68-70, 72-75, 79, 85, 88, 91, 97, 102-104, 107-110, 112-113, 115, 120, 122, 125, 126-128, 131 132, 135, 138, 140;

Von H. Kızılyay die der Nummern 2 3, 6-8, 11 16, 20, 23, 28, 31-39, 41, 44, 46, 50-51, 53-54, 61, 63, 66, 71, 76-78, 80-84, 86 87, 92-96, 98-101, 105-106, 111, 114, 116-119, 121, 123 124, 129-130, 133-134, 136-137, 139, 141-148.
